## Part G: Video and Photography

With rowing, especially if a crew or individual is aspiring to race, the best piece of coaching equipment is a video camera. Once video footage has been taken it can then be shown to the crew or individual by the coaches, analysing technique and general performance. It is easier to show someone and explain a fault, or good points, rather than trying to explain it.

Photographs may be used in the same way as video footage by coaches and are mainly taken at events where our crews are competing. The photos taken can then be shown to the crews involved, or may be displayed on the Club's website or could be used by the Club for publicity purposes, e.g. press reports.

With Juniors, child protection is more important than any of the above, keeping in line with child protection policies under which the Club operates, before any videos or photos may be taken it requires parents/guardians' permission. Could you please complete the following to help assist the coaches at the Club.

I do not give permission for any video or photos:  \*Signed \_\_\_\_\_

I do grant permission for video:  \*Print Name \_\_\_\_\_

I do grant permission for photos:  Junior's Name \_\_\_\_\_

## Part H

On completion of this form, I agree to my son/daughter/child in my care, taking part in the Club's activities.

The club welcomes the participation of Parents both in sessions, as helpers in the various club events and particular as participants in the sport. We will do our best to inform you of progress and any other relevant communication.

I understand that in the event of injury or illness when involved in any club activity, all reasonable steps will be taken to contact me and to deal with that injury/illness appropriately.
